

Non-contact Electronic Thermometer

HP-311

Accurate reading

LED display screen

Fast

1- Infrared sensor:

Absorb infrared light from the surface of the object and convert it into temperature

2- LCD display screen:

Display temperature measurement results

3- Measurement button:

Measure temperature

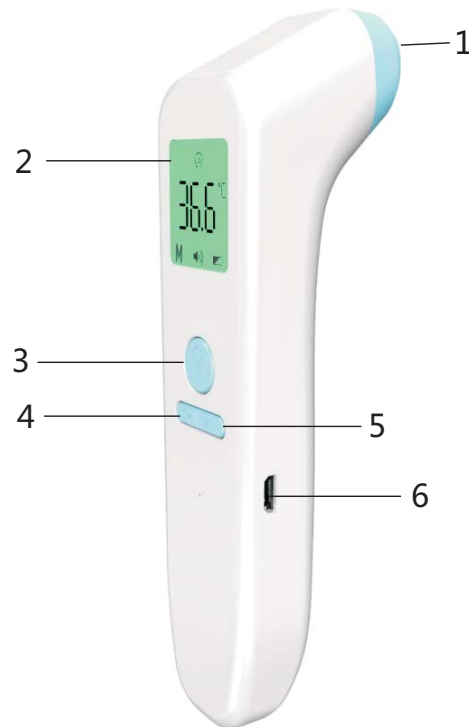

4- SKP button:

Sound on / off button, turn measurement sound on or off

5- MEN button:

The temperature measurement result can be retrieved, and the stored data is 99 groups.

6- USB charging port: 5V 1A

Product Parameters

1) Basic parameters

Model : HP-311

Dimension : 159*37*42mm

Product Net Weight : 115g

Temperature : °C/°F

Temperature accuracy : 0.1°C

Memory storage : 99 groups of data

Working environment requirements : 15°C- 35°C; ≤85%RH; 70kPa-106kPa

Environmental range : -20°C~+55°C; ; ≤85%RH; 70kPa-106kPa

Product lifetime : 5 years

Power supply : Battery Capacity:500mAh(Built-in rechargeable non-removable lithium battery)Charging : 5V 1A

Operating Voltage : DC 3.7V

2) Measurement Range

BODY mode(body) : 32.0°C-- 42.9°C(89.6°F-109.4°F)

OBJECT mode(Except the human body) : 0°C-100.0°C(32.0°F-212.0°F)

Measuring distance range : 5-10cm

Automatic shutdown time : ≤8s without any operation

3) Measurement accuracy

35°C-42°C(95°F-107.6°F) : ±0.2°C(32.36°F)

<35°C : ±0.3°C(32.54°F)

>42°C : ±0.3°C(32.54°F)

Package

Product Dimension: 159.5*39*45

Product Net Weight: 115g

Product Gross Weight: 182g

Outer box Dimension: 175*130*65mm

Carton Dimension: 408*385*332mm

Qty/carton: 48pcs

Net weight/carton: 5.52kg

Gross weight/carton: 9kg

Qty/pallet: 30 cartons per pallet, total 1440pcs

Qty/20 feet container: 10 pallets per container, total 14400 pcs

Qty/40 feet container: 21 pallets per container, total 30240 pcs
